HOTEL CAMPAIGN IS REAL TEST OF CITY CRAIG DECLARES

PRESIDENT OF SAMSON PLANT SOUNDS WARNING TO PEOPLE.

DRIVE IS LAGGING

Speakers at C. of C. Luncheon Dissatisfied with Progress.

Once more J. A. Craig, president of the Samson Tractor company, sounds a warning to the people of Janesville that the city is failing a test that will determine whether the General Motors corporation continues to make its plant here larger or move a portion of it to another city. At the regular meeting of the Chamber of Commerce held at noon today in the Hotel Myers, at which the hotel proposition was discussed, Mr. Craig declared, giving it as his own personal view, that:

"This is going to be the real test of what Janesville can do to keep pace with a good substantial growth. I want to get that over. I state it as my personal opinion, as a citizen and not as a member of the Samson Tractor company. If the hotel proposition succeeds, you have shown that Janesville can go the limit to make this a real city."

"I do not believe that the people of Janesville think that this is the real test. I think that most of the people believe that it is the municipal affairs which are the real test. But tell you, this is the real test."

"We cannot, and will not, continue to build an institution in this city unless our employees can be taken care of. The hotel is the burning question."

"For the time being I can see a way out of the dilemma of housing the next two years. But the hotel proposition I can see no answer to except through this building. For which you are co-operating. Now our people, meaning General Motors, will not build this hotel. And I will do all I can to stop any plan for the General Motors to build it if they want to put money into it as individuals, all right. But if the company were to put up a hotel, the people of this city would at once say, 'now they are the town.'"

"We cannot, and will not, continue to build an institution in this city unless our employees can be taken care of. The hotel is the burning question."

Notes of dissatisfaction at the manner in which the campaign is progressing were expressed by various speakers at the session. O. A. Ostroff joined with George S. Wells, manager of the Chamber of Commerce, in asserting that the campaign is lagging. He said that if the citizens do not get any more enthusiasm into the proposition, it will go no further.

"People of the city who ought to be back of the proposition," he declared, "are not, or not as actively as they should be." "Every day we are owning a foot of real estate in Janesville has been allotted by the new industry which has come into the city. Yet we have 'dollar' dealers just like chicken fancies who will not let go of their money. I have been out and found many who will refuse to subscribe."

"Would you like to publish the names of all those who have not subscribed, and those who have not, when the campaign is finished, he continued. "Some men are doing more than others, but there is no excuse at all. Let us get together and put this plan over as a community measure. It is not a community measure. It should never have undertaken it. It is a matter of civic duty just as much as the Liberty bond campaign."

The manner in which the young men, especially the members of the Elks club, have taken up the campaign was told by Roger C. Cunningham, city attorney. He said from the results which the younger element has seen from their canvassing, they are firmly convinced that many of the business men of the city are laying the foundation for the campaign. Specifically that when the new proposition was first mentioned 27 men of Janesville promised to underwrite \$200,000 of the money, but that so far as he can learn from it, nothing has been done.

Our Duty

Many people who have been called upon to subscribe for stock in the new hotel have considered the investment angle of the proposition: only from one angle—that is: "How much will I get in return on the money I invest?"

They are overlooking another angle that is of great importance to them no matter whether they are to business or own real estate. It is concerning the effect of identified and unidentified stocks in the market value of the city, will just about double their holdings.

That should be considered as an investment. We all know that property in Janesville, which was a drag on the market has suddenly become active and that real estate values are increasing rapidly. If the plans of the Samson company are allowed to go forward, this increase will be more. If the plans are changed and some of the things which the General Motors have laid out in the general field of property are held to, or it may be necessary to take them to some other city, the owners of property and the business houses will feel it.

Those who wish to argue against subscribing for stock on the grounds that they cannot afford to make the pledge should consider the matter in the light of the effect upon the general community. If the committees that are now asking the citizens of the steamer who had been away on a vacation, and four members of the crew of the Neff who walked ashore Saturday were in the party. The sixth was H. C. Anderson, a retired lake captain.

F. C. Daggett, keeper of the four mile crib, reported by telephone today that he had watched the Neff all day yesterday and had seen no trace of the six men but Captain Anderson says it was possible they passed the crib during a snow flurry without being seen.

The Goodrich Transit company's flagship Alabama, carrying a crew of 50, was fast in the ice banks six miles out.

For the first time in a week the wind today had shifted to off shore. It is believed the shifting ice would permit the Alabama to crush her way to port.

Capt. O. T. Olson, skipper of the Neff, H. C. Anderson, a seafaring friend, and four members of the Neff's crew, Amund Strand, who is from George Strand, and Paulus Hanson, Michigander, and Conrad Cudweier, whom were the men reported missing early today. The five men from the boat had made their way to the shore but were returning to the Neff. Rescue parties failed to find their trail in the snow.

On Saturday, the Alabama was immediately frozen in. She was said to be in no danger.

EX-PREMIER ASQUITH PROMINENT IN RACE FOR PARLIAMENT

FAT ASSOCIATED PRESS.

London, Jan. 26.—Former Premier Asquith today, while he is a candidate for parliament at the by-election to be held in that constituency, the campaign for the seat opening today to end with the polling three weeks hence.

Opinion is closely divided as to the wisdom of running a unionist candidate, Mr. Asquith and there also signs of a split in the democratic section. J. M. Biggar, labor candidate, apparently does not hold strong enough views to suit the extremists among the Asquith socialists, who are threatening to pull him apart.

The candidate named by the local branch of the unionists at Paisley, J. A. Mackean, unsuccessfully contested the constituency in 1918. He is well known in Paisley, being a member of the town council, a member of the Conservative party, which has consistently supported the coalition government and generally in pre-war days advocated unionist principles, frankly expresses regret that local unionists should oppose Mr. Asquith, declaring that all men of any judgment are bound to support a candidate of the first rank and leader of a considerable party with definite and distinct opinions on most questions.

"We hold therefore," continues the Telegraph, "that his return to the House of Commons is in the national interest, and it should be desired and should be welcomed even by those who generally have been are likely to remain his opponents."

The Telegraph's advertisement columns on the other hand contain an advertisement declaring that the lawyer-politician is the enemy of to-day and appealing for funds to fight Mr. Asquith.

Boat Stuck in Ice in Lake Disappears; No Trace of Six Men of Rescue Party

Shifting Winds Drive Sidney O. Neff Out from Shore; Keeper of Crib Believes Relief Crew Is Lost.

(By Associated Press)

Chicago, Jan. 26.—The converted schooner Sidney O. Neff, ice bound six miles off Chicago harbor since a week ago today, disappeared from sight during the night and is believed to be drifting across the lake with the ice pack. The northeast winds which had piled up the ice before the harbor for a week shifted during the night to the southeast and the entire ice field is moving out.

No trace has been found of six men who left Chicago yesterday to walk over the ice to the boat. Capt. John O. Anderson, regular commander of the steamer who had been away on a vacation, and four members of the crew of the Neff who walked ashore Saturday were in the party. The sixth was H. C. Anderson, a retired lake captain.

F. C. Daggett, keeper of the four mile crib, reported by telephone today that he had watched the Neff all day yesterday and had seen no trace of the six men but Captain Anderson says it was possible they passed the crib during a snow flurry without being seen.

The Russian soviets have "between \$450,000,000 and \$500,000,000 in the public treasury," Mr. Martens said, which it was found necessary to spend in foreign countries on the increase of necessities. There was now no gold in the hands of private banks or individuals in Russia, he added.

EXAMINATION IS RESUMED

Examination of Neff before the second committee investigating the sinking of the steamer was resumed yesterday and his statement as to the policy of the Russian-soviets followed the request of the committee to present the originals of his instructions be presented. Previously former Senator Hardwick, Maine's counsel had explained that Martens had refused to present the code used for communicating with his government before the Lusk legislative committee in New York.

"I'd like to have a little time to what instructions I have to furnish the committee everything it requests."

The code was the only thing the secret agent wanted to protect, Hardwick declared.

"These instructions from my government have at all times guided my policy and conduct," he said, "in getting from a peace which makes the Turks a subject people, such an alliance with the soviet power would be but temporary."

"Bloodshed would follow a peace settlement which placed Greeks in control of this city, he said, and the giving of Thrace to Greece would have the same result as did the Lushki uprising in Turkistan."

Mustapha Kemal denied his adherence to the national cause were engaged with Enver Pasha or with Tevfik Pasha, former grand vizier, who was reported to have been converted to bolshevism. Bolsheviks might result from a peace which makes the Turks a subject people, he asserted, but added that such an alliance with the soviet power would be but temporary.

"There is no place on earth for a nation is against every national ideal that we cherish," he said, "and if a peace is made for us that will help us to maintain our ideals we shall rise from the ruins which are the result of too many wars. Our people might make some sort of an alliance with the bolsheviks, but bolsheviki they will never be at heart."

"It is true that Enver Pasha appears to be cooperating with the bolsheviki for the sake of the Turkistan affiliated with the Moslem Tartars of the Caspian sea, in Daghestan and Azerbaijan, but this is merely to get support against the British. There is no place on earth for a nation is against every national ideal that we cherish," he said, "and if a peace is made for us that will help us to maintain our ideals we shall rise from the ruins which are the result of too many wars."

"Enver," Martens answered, "I have ever carried on propaganda in this country with a view to getting soviet government established in this country?" Senator Borah asked.

"I never," Martens answered, "I have ever carried on a propaganda in this country to get the soviet government recognized, that is all."

DEMAND ON DUTCH FOR KAISER IN HANDS OF LEGAL EXPERTS

(By Associated Press)

Paris, Jan. 26.—The refusal of the Dutch government to comply with the demand of the surrender of the Kaiser was the first subject discussed today at the initial meeting of the council of the ambassadors, created to carry on the unfinished work of the supreme council of the peace conference.

The discussion of the members further than that it appeared to be the view that the legal phase of the question had become the chief one.

The council decided to give the representatives of the Dutch government four days additional time to reply regarding the proposed compromise on the disposition of Flume.

The council received a letter from Stanislas Piatek, Polish minister of foreign affairs, calling attention to the possibility of a strong aggressive movement by the bolsheviki against Poland territory and recommending a plan be adopted for defensive measures.

The council also decided to submit a report to the League of Nations on the disposition of Flume.

ALL FARMERS URGED TO ATTEND SESSIONS IN BELOIT, FEB. 26-28

A tentative program for the farmers' institute which will be in session at Beloit college, Feb. 26 to 28, has been announced. The institute is to be held under the auspices of Beloit Chamber of Commerce, the state university and Beloit college.

The institute will begin Thursday noon with a luncheon. "Rock County Order Day" is the subject for the first day. L. F. Graber, college of agriculture, will be the chief speaker. Exhibits of grain and vegetables will be shown during this lecture.

D. S. Bullock and A. J. Cramer, college of agriculture, will give the discussion Friday on "Dairy Cattle." A mass meeting of farmers will be held for the purpose of promoting purebred stock.

Thursday and Friday afternoons there will be an institute for the women under the direction of Mrs. Nellie Kedzie Jones, home economics department of the university. Miss Robertson, Beloit college, will assist Mrs. Jones.

Rural teachers of Rock and surrounding counties are invited to attend Saturday afternoon. The meeting will be conducted by Supt. O. D. Antisdel and Mrs. Jones.

Supt. Antisdel and County Agent R. T. Glasco both on the committees on arrangements said today every woman teacher and teacher in the county is invited to attend the institute as well as those living in surrounding counties.

BRITISH TO USURP U. S. TRADE, THEY SAY

(By Associated Press)

Buenos Aires, Sunday, Jan. 25.—Statements by Lord Aspinwall, president of the British Board of Trade, that the British would supplant the United States in the market she won in South America during the war, which were recently cabled to Argentina, have aroused considerable reaction here. These, they were given wide publicity here by a British advertising agency.

Speaking last night at the first annual banquet of the United States Chamber of Commerce in Argentina, William H. Robertson, American commercial here, took the caption to them as being "hostile propaganda."

"The amount of our Latin-American and Argentine trade that we hold after the war," he said, "will depend exclusively upon the efforts of our manufacturers and the skill of our salesmen—in other words, consideration of price and quality. With an enormously valuable home market the United States has up to the present done little except via our concerted effort to secure Latin-American trade. I think the president of the British Board of Trade will find himself mistaken in his recent alleged utterance that 'more experienced methods in trading, and quality, are going to supplement us with our Latin-American friends.'

Paris, Jan. 26.—Raymond Poincare, who will return from the presidency of the republic February 17, desires to devote himself entirely to the reconstruction of the department of the Meuse, which was a part of the battle zone, and for this reason will not accept a position in the government for three years, according to the *Le Figaro*.

**"BEST IN WHOLE
WORLD", HE SAYS**

"One resolution I made New Year was to never be without Tanlac in the house," said Benjamin Schinski, 664 North St., Milwaukee, Wis., recently.

Mr. Schinski, who has lived in Milwaukee eighteen years and is well known to hundreds of people, is employed by the Stowell Mfg. Co., South Milwaukee. In speaking of his remarkable recovery to health he continued:

"My stomach and back gave me a world of trouble for a long time and when I got up from a spell of the flu last October they were in such bad shape they almost killed me. I had to wear a woolen bandage across the small of my back and it hurt so bad that I would almost fall with the pain, and if I bent over it seemed like my back would break in two. My stomach seemed to be all wrong some way and everything I ate bloated me up so with gas I could hardly breathe and I had sharp pains around the heart. Right under my ribs my stomach was sensitive to the touch and I was so short-winded I could hardly exert myself at all. When I stopped over everything would get dark before me and I would become so dizzy I could scarcely keep on my feet. And headaches—whoo, I don't guess there was a month during the last ten years that I didn't lose one or two days from work with the headache."

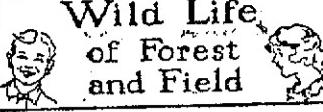

"Well, sir, that is the condition I was in when I decided to see if Tanlac would help me as much as the other Milwaukee people say it helped them and I will say right now that Tanlac is the best medicine in the world. I have gained several pounds in weight and my back feels as good as it ever did."

"The pain in my stomach is entirely gone and I eat three whaling big meals every day. I sleep like a log every night and get up in the morning feeling like a fellow ought to feel. Yes, sir, as I said before, Tanlac is the greatest medicine in the world and I am glad to say a good word for it."

Tanlac is sold in Janesville by all leading druggists.

FOR BOYS AND GIRLS

Study Problems Solved

My Vocabulary

By Charlotte G. Kuhl,
Francis W. Parker School.

We used to play a game which would begin: "How many ways can man go across the ocean?" In turn we would say: "He staggered across." "He rushed across," till no one was left who could supply a new verb. Some of us remembered in later years that each of these verbs made a different picture, and each was a vivid memory of one's writing force.

When James was 14 he showed me a note book in which he had made a list of various substitutes; for instance, "he muttered" he growled, he insisted, he chattered, James was soon a writer, and he observed that one difference between a monotonous style and an effective one lay in variety of vocabulary. Margaret also had a book, in which she used to note every new word that she heard. Two or three years after this she was writing words of real beauty, especially characterized by her love for strange beautiful words.

But it is not only boys and girls who intend to make themselves writers who need to increase their vocabularies; have you noticed how ignorant people use only about 50 words? Every one needs to be able to command the language which will express his meaning accurately and completely. To acquire this power he must read authors of reputation, like Stevenson, St. John, Edward White, and a word to an idea, as just fit a glove to a hand. He must hear good lecturers

and read books on the rusty-red lynx and red fox which is mingled in her fur which is mingled in gray and black. Sometimes she is spotted with round black spots; then she is called spotted lynx. But she is found in all parts of the United States and Canada and apparently belongs to the same species whether spotted or mottled.

Larger Than Tabby

Tabby of the wild is larger than her cousin who lives with you, your cat, from nose to tail and from ear to ear. Thirty-one inches is the average length of a Wildcat, and her tail is from 5 to 7 inches. From ground to shoulder she measures 18 inches and she weighs about 18 pounds.

Her Good Looks

The face of the Wildcat is handsome and it shows how nearly related she is to your own tabby, but occasionally a sign of the wild appears in the little, pointed tufts of hair at the tip of her ears like those of a bear relative of hers, the Canada Lynx, who, however, wears longer and more marked "ear-pencils."

But Is It Fraid Cat?

She is something of a coward and exceedingly shy, so you need not be afraid if you meet her. She will run off at your way very quickly, much faster than is desirable if you are anxious to see her. But while she does not attack humans and is as much afraid of dogs as any other cat, she has been known to kill birds and even when she tries to hunt rabbits and game birds. Nobody seems to love the backwoods tabby and hunters are allowed to shoot and trap her at pleasure. They want her fur for you see.

**Looking Back at Janesville
For More Than Half Century**

(By D. W. Watt)

It was on August 20, 1865, that I first made the form to come to Janesville to work in a dry goods store.

As Judi and Monroe were the largest towns that I had ever been to, I thought it some undertaking to come to a large city like Milwaukee. Long before the train reached the little dingy depot, at that time located west of the five points, I made up my mind the safest way for me to do was to take the bus and have the bus drive me to the store. On my arrival the two partners, Mr. L. Colvin and Mr. Farnsworth, took me into the store and gave me the "once over." I think they made up their minds at once that they would have to make some change in me before I would make a real dry goods clerk. They did not know what they could do with me and it was not long before I was waiting on customers like a real clerk.

Janesville Has Changed.

The store was located at the North Main street, near the bowling alley now, and Janesville was much different then than now. For at that time it savored a good deal of the frontier town which I visited several years later. At that time Janesville with three wholesale dealers, with 10 or 12 men working on the road, all located on North Main street, was further north on the same street was F. A. Wheeler's woolen mills. Farmers drove in here for many miles around and traded, and when we came to the old stone building at the rear of the city hall was used as an animal house for the winter. The show was owned at that time by Burr Robbins and Uncle John Stowe. The following summer, after the snow had been on the ground for a few weeks, Burr Robbins came back to Janesville and bought a farm of 110 acres at Spring Brook, known as the Doty farm. Soon he let contracts for buildings suitable for winter quarters for the show. As the show traveled through, many different stores during the summer it naturally advertised Janesville to some extent.

Promoter Blows It.

But the larger factories which Jamesville struggled hard to get at different times seemed to get away, and the town settled back again in the same old way. Then a promoter by the name of John ("Windy") Hamilton blew in here from Springfield, Ohio, and soon interested himself in the business and in his scheme that he believed he would build factories in Janesville as far north as the four-mile bridge and just as far in every other direction. But it was not long until Hamilton left to return to his home in Ohio.

At that time Janesville with three wholesale dealers, with 10 or 12 men working on the road, all located on North Main street, was further north on the same street was F. A. Wheeler's woolen mills. Farmers drove in here for many miles around and traded, and when we came to the old stone building at the rear of the city hall was used as an animal house for the winter. The show was owned at that time by Burr Robbins and Uncle John Stowe. The following summer, after the snow had been on the ground for a few weeks, Burr Robbins came back to Janesville and bought a farm of 110 acres at Spring Brook, known as the Doty farm. Soon he let contracts for buildings suitable for winter quarters for the show. As the show traveled through, many different stores during the summer it naturally advertised Janesville to some extent.

Jamesville Has Changed.

The store was located at the North Main street, near the bowling alley now, and Janesville was much different then than now. For at that time it savored a good deal of the frontier town which I visited several years later. Only Seven Sports

Off hand you'd think that sport was the most common name just like you think of the myriad of Johns and Marys but not here, only seven owners have credited their dogs with godliness. Of these the only three godfathers in the city who deemed it a nice enough name to wish onto their pets.

—Some folks can't resist a title so they dub their dogs. Most jocosely. We've got such ones, King, Queen, Duke, Princess and four Princes and six Kings—an assortment of bluebloods say you. You've said wrong—some are mongrels but like lots of folks they overcome their Jewish ancestry to such an extent that they really are entitled to some title—in dogdom you're still an American citizen even if you do accept a title.

OUIJA CALLED TO BOOK.

The costliness of taking the ouija board seriously
is now to be demonstrated in Chicago. A couple whose
home had been robbed consulted ouija, who promptly
spelled out the name of a man and his wife as the
guilty. The victim of the robbery repeated this, and
now they are defendants in a \$10,000 suit for slander.
The accused say they are not interested in anything else
ouija may be; it is enough for them that in this case he
is a liar, and that those who took stock in him against
them are going to pay dearly for it.

It has been difficult to believe that any grown-ups
take this board as more than a childlike plaything, but
here is evidence that some who ought to know better
consider it seriously. It may be well enough, then, to
impress such that, instead of recognizing a spirit of the
invisible world as moving the speller, only the visibles
at the board would be held responsible for any false
statement resulting from the operation. The old mat-
ter-of-fact dictionary sees nothing in the performance
but "unconscious muscular exertion" of the hands in
keeping with the dominant thought of the sitter at the
board. Just a form of the phantoms that amused
folks long ago.

It ought to be enough for anyone that if there were
any enlightening power in such devices practical use
would have been made of them long ago. Instead of
maintaining costly detective bureaus a 98-cent ouija
board would be used. Why, even the courts could
do away with if a way could be found to have spirits
do the work for nothing. Common sense must be applied
to everything. When so-called spirit messages are
trifling or mendacious the only conclusion is that their
origin is of a low earthly nature or else a brand of vis-
ibles who ought to be regarded as pests instead of in-
structors. While the mind may be kept open to the
work of reputable psychic instructors and researchers,
it ought to be shut to every form of quackery that
would sell the "secrets of the beyond." While there is
almost universal belief in immortality, it is a sublime,
sacred thing—not a thing to be pried into with a couple
of bits of board. If it is to be revealed, it will come
in the fullness of time.

In regard to the things of the beyond, there should
be a spirit of reverence as well as common sense.

OTHER PEOPLE'S BUSINESS.

Any man who has a steady job and a congenial family
must sometimes wonder how many persons find
time to become interested in other people's business, or
when the unexpected event happens, that there are
scores if not hundreds of persons who drop matters of
routine to satisfy curiosity, and others who can be
found to devote hours or days or weeks to investiga-
tions. The thought follows a glance at the front page
of a New York daily lying on the editorial desk. There
are not less than 14 items on the page, covering the
range from investigation of a burglary to inquiries into
sundry and divers subjects relating to partisan politics,
war medal decorations, trolley service, etc.

What a tremendous waste of time and talent goes on
from day to day in a large city! How many scores of
stenographers are daily employed taking notes for in-
vestigators and reformers or taking dictation for up-
lift addresses to be delivered before a handful of club
members or at a businessmen's luncheon, when the
same nimble fingers might be employed with making a
house dress or fashioning some other article of wom-
an's apparel?

What would the same persons—men, women and
girls—be doing if the little happenings on the streets
or in the offices did not occur to absorb their attention? Have
they any regular occupation, or is it because of
their chronic idleness that they have so much time to
devote to other people's business? Did the poet speak
the truth when declared, "Satan finds work for idle
hands to do?" And is this the explanation for the ac-
tivities of parlor bohemians, who, in turn make work
for our lawmakers and courts?

PUTTING THREE R'S TO WORK.

Much more trouble has been reported by censu-
takers this time in obtaining information from the for-
eign-born population than in any previous national
enumeration. The difficulty is ascribed to ignorance of
our language. In many districts it was found necessary
to supply interpreters for the enumerators, and even
with their assistance the eliciting of answers to the long
list of answers has been a slow and trying task. The
necessity for the Americanization of our foreign-born,
the first step toward which is the teaching of our lan-
guage, has thus been emphasized as never before.

An article in the current issue of the American Leg-
ion weekly, entitled "Putting the Three R's to Work,"
remarks that while teaching an alien our common
tongue does not make him loyal to America, it is ap-
parent that he can learn the lessons of patriotism ef-
fectively through no other medium. Many foreigners
who refused to answer the questions of the census, even
after they had been translated by interpreters, feared
that some sort of tyrannical government inquisition was
in progress which might result in restrictions on their
liberty.

A better understanding was found among persons of
foreign origin who had learned English and had read in
the newspapers the real purpose and scope of the cen-
sus. Secretary Lane says we have 5,500,000 illiterates
in the United States. "A continuous, instructive system
of education in Americanism" is the program of the
American Legion. It is needed.

JUST FOLKS

Edgar A. Guest

WORTH WHILE.

If you want to feel you're doing something really
worth your while, Just help a man in trouble and then watch him
start to smile; Take his burden on your shoulders and relieve his
weight of care, And stick until you've helped him from the valley
of despair; Then when he turns to thank you with a gratitude
that's real, You'll be surprised that minute just how good it
makes you feel.

There's no such satisfaction as the satisfaction true
Which comes from helping others in the work they
have to do.

And there's no such thrill of gladness like that
sweet and happy thrill Which is born of helping others who are trudging
up the hill;

If you want to know contentment and be truly
satisfied, Just go out and help your brother when his soul
is being tried.

You can boast your selfish pleasures and may glory
in your fame, You may think that there is gladness in the many
joys you claim,

But you're never really certain that you're doing
things worth while THIN you've smoothed another's pathway and you
know it by his smile;

When you've done some deed of kindness under
friendship's bond and seal, It's surprising at that minute just how good it
makes you feel.

Leap Year Out of Job

New York, Jan. 26.—Now that
Leap Year is once more with us
what will the women do with it?

This question, which used to bring
a rosy blush and demure tint, has now
disappeared, replaced with
diseasing frankness and practicality by the new women. Indeed,
after asking it a few times you perceive that women are getting newer
and newer.

CONFESIONS OF A HIGH-B

BUSINESS BUILDING PARTLY DESTROYED BY FIRE; LOSS \$2,500

An early morning blaze in the two-story flat and store building at 218 West Main Street, Beloit, Saturday, drove William H. Albrecht and his family to the street panic-stricken, clad in night garment, and caused damage to the building estimated at upwards of \$2,500.

The fire is believed to have had its origin in the lower part of the partition which adjoins the west wall of the drying room of the Lee Sing laundry, one door east. Overheating of the chimney by two stoves in the drying room and another used to heat water is blamed.

That the building exploded for several hours before being discovered is the belief of Con. Murphy.

Starling in the partition on the first floor it ate its way upward between the walls and into the attic where it raged for more than an hour.

Three entrances to the fire were played out, the entire building being flooded with water, some of which ran into the adjoining flat occupied by Edward Krohn and the laundry located below it. The Maco & Tatum billiard hall located under the Albrecht building was also damaged, smoke and water damage, but unable to be open for business today. The Chinese laundry also operated as usual.

The building, where the blaze worked its greatest damage is owned by the Beloit Commercial Co., Inc. It was fully insured. Mr. Albrecht carried no insurance on his furniture, practically all of which was damaged by fire, smoke, and water.

With the temperature hovering well below the zero mark, firemen fought the blaze for more than two hours.

Five hours later a spark dropping from the attic down through the partition started the fire again, and the department was called out a second time to extinguish the flames.

Officer Patrick Stein notified the fire department at 12:40 o'clock after he had seen great clouds of smoke coming from the building. An alarm from box 52 was turned in a few seconds later.

Alerted by the smoke and cries of "Fire" from the street below, Mr. and Mrs. Albrecht and their 15-year-old daughter, Myrtle, were roused from their beds and forced to leave their home scantly clothed. They took refuge with neighbors.

The fire department arrived the building seemed doomed. The plate glass door to the billiard hall was smashed to gain entrance. Upon seeing the fire was spreading through the partition to the flat above, Chief Murphy ordered firemen to cut the Albrecht flat above showed the blaze to be leaping into the attic, which slopes from an 18-inch height in front to but 3 inches in the rear.

Great holes were chopped in the roof and the walls of the Albrecht home, and several thousand gallons of water were poured through. The tin roof prevented the blaze from going upwards making the job doubly difficult for firemen, who blinded by the stifling smoke and fumes in the flat building groped their way through the smoke-filled room. The other two streams were used in the attic being sprayed from the roof.

Some of the furniture, including a davenport and piano, was saved together with silverware and jewelry.

The blaze was out in several months. With two sides of the flat encompassed by flames and the entire building filled with dense smoke it seemed impossible to make any headway in putting it out.

Billiard Tables Not Harmed

Tables in the billiard hall were undamaged by the water, rubber covers throwing it off to the floor.

Practically the entire roof and west wall of the building will have to be reconstructed. The joists were badly burned and great stretches of plaster were knocked off.

In the flat adjoining the Albrecht rooms on the west four members of the family of Charles Hallett were ill. The city ambulance was in readiness to take them away in case the fire spread. The fire did not reach the basement or any of the three buildings.

The Albrecht family will live with friends until the building has been repaired.

After the fire had finally been extinguished shortly after 2:30, Chief Murphy and two assistants went over the entire three buildings to make sure it was not smoldering in any part. The investigation was under way until after 6 o'clock. At 8 o'clock, smoke was seen again and the department was summoned, extinguishing the smoldering embers in a short time.

Mr. Albrecht stated today that for the past three weeks he had noticed smoke in the rear part of the flat upon arising several mornings. He thought of notifying the department but let the matter drop. There is a possibility that the fire was smoldering for several days before being discovered.

Factory Ball League Under Way With Twelve Clubs

By George McManus.

CADDOCK-STECHER GO SET FOR JANUARY 30

DECIDE AT CHICAGO SESSION ON OPEN WEEK-END SCHEDULE

(BY FRANK SINCLAIR) Deciding upon a 12-city circuit, the Industrial Baseball League was formally launched yesterday at a meeting held in the Hotel La Salle, Chicago. Eight clubs from as many cities in the Middle West, including Janesville, were represented. Three other teams unable to have representatives present telegraphed their intentions of joining. Two sessions were held, one in the forenoon and one in the afternoon.

The intention of the promoters of the factory league is to work in harmony, so far as possible, with organized ball. For that purpose a committee was appointed to attend the minor league meeting in February to try to arrange some form of working agreement. The committee is composed of George Ferring, Janesville; Joe McGinnity, Beloit; and Al Chubb, Elgin.

Saturday and Sunday Games.

An open schedule of Saturday and Sunday games is planned. The circuit will be large enough to arouse keen interest among the fans, yet sufficiently small to hold railroad and hotel expenses to a minimum.

At an election of temporary officers, E. F. Chamberlain of the A. E. Staley company, was chosen chairman, and Al Chubb of the Beloit Tribune, secretary. The three teams not represented, but voted franchises, were Hallights of Toledo, O.; Nordyke Marion company, Indianapolis; and the Central Steel company, Marion.

The club officers, with their representatives, were: Samson Tractor Co., Janesville—George Ferring; Fairbanks-Morse Co., Beloit—Al Chubb; Buster Kenne, Delco Co., Dayton, O.—E. E. Stewart; A. E. Staley Co., Decatur, Ill.—E. Chamberlain; Joe McGinnity, Republic Truck Co., Alma, Mich.—H. T. Olmstead.

Walworth Mfg. Co., Keweenaw, Ill.—W. H. O'Connor; American Tires Car Co., East Chicago, Ind.—P. M. Callan; Simons Co., Kenosha, Wis.—E. W. McAllister; J. J. Leuck.

Schwind Under Contract.

When you were young you used to hear about the "Elsie books." Now that you've grown up and may have been to war, you have probably heard of the newest "Elsie book," which we mean.

"Americans make better husbands than English. They are always on the spot and they require less coaxing," declared "Dad's" first wife, who arrived from England where her Yank-husband was on duty when they met.

Perhaps it wasn't an Irishman, after all, that said A. E. F. stood for "After English Failed."

WILL THEY FAIL FOR IT?

It has been officially announced that it is now safe to parachute from an airplane at the height of 400 feet. This will come as a distinct surprise to many who were under the impression that the best that could be done was to jump until the machine had dropped to a mere 200 feet above the nearest picket fence before jumping overboard.

He was not even a bench-warmer in 1913 or in 1914, so that he was farmed out to Atlanta, and sold to St. Louis in the spring of 1915. He was on the diamond only three weeks, his hard luck made love to him again. This time he broke his leg. Recovering, he was sent to Beaumont, Texas, but the injury was serious enough to keep him out of baseball in 1916.

Jones joined the Army.

The "Prize" Seals next had Schwind, and though they were playing fast ball, he left them in May, 1917, to enlist. He bid a final adieu to Market and Stockton streets and tramped off with the 18th engineers of the "Grizzly" unit to France. All the time that he was doing the pick and shovel act and riding in "hommed" 40-chevaux trucks, the Boche were interesting while they had time to think, but after Armistice day France held no attraction for Art. His vision was from "Boche to Baseball."

Soon after returning to "God's Country" in June, 1919, he signed with the Beloit Marathons, where he played third base in several games and was a main factor in enabling Parker to give Parker Pen two trimmings in the city industrial league. He batted over .300 with the Marathons, knocking out ten homers, a triple and a single in five trips to plate. However, it is his fielding that the fans enthuse over.

He will assist Perring in getting the team into shape and keeping it at the top.

Lewis, Fighter, Slowly Recovers from Wounds.

New York, Jan. 26.—"Willis" Lewis, retired pugilist, who was shot and severely wounded by two unidentified men in his car in 14th street last night was said to be much improved today by physicians at the hospital where he is a patient. He is expected to recover.

Rockford High Team Defeats Elgin, 22-17

Elgin, Ill., Jan. 24.—Rockford high school basket team, which hadn't been beaten for two years, was downed here tonight by the Elgin High, 22 to 17.

NEW YORK PLANS BIG BOBSLED CARNIVAL

New York, Jan. 26.—The heavy fall of snow in this vicinity recently has revived interest in winter sports almost forgotten here—bobsledding. A tristate championship tournament was arranged today to be held January 25 on Humphreys Hill, Ossining, open to bobsledders from New York, New Jersey, Connecticut, and Rhode Island to make it a local meet an annual affair. Four prizes will be awarded to the sleds sliding the greatest distance.

BRINGING UP FATHER

FAIRIES TAKING PRECAUTIONS FOR THURSDAY'S GAME

(BY FRANK SINCLAIR)

"The Fairies are taking every precaution to keep their team in trim to meet the Janesville Lefota Cardinals."

This is the word that reaches here showing how anxious the Gateway city basketball Kings are to take revenge upon the Cards for their surprising victory last Friday. The Marquette-Morse team is a week ago to the tune of 33 to 16. They are talking about the cash side of the game again, too. Well, let 'em rave.

Phillips, the man who made the scoring for the Fairies when they were here last Friday, offers a slight discount to his patients from the physicians to keep under cover. For that reason he did not play with the Lile city team when they trounced Elgin, 67-12, Friday night. Elsie placed at forward was taken by Lile, who failed to add a point to the scoring.

Zabel Agnes.

In the Friday game, "Zip" Zabel won with Hassbrook for the honors of running up points. Both made 11 baskets. However, the Janesville fans need not worry about fancy work, as the Cards are the ones to be feared when up against the Cards.

Zabel, big as he is, is easy to hold down; all that is needed is to worry him to death. He's sensitive. Hassbrook, while a swift rover, can be held in check by close guarding.

The Lefota girls are to meet the Fairies on the college court where the floor is smooth and the going likewise and there is nothing "slippery." We will not go so far as to predict a victory by wide margin, but we are sure enough of the Cards to say that they ought to bring home the bacon.

CHICAGO PLAYERS DEFEAT MICHIGAN

Chicago, Jan. 26.—In a burlesque combat Chicago defeated Michigan, 40 to 22, at Bartlett gym Saturday night. The exhibition furnished the maximum entertainment for the big crowd, but developed a minimum of good.

Through the first half the play was listless, but accurate tossing of baskets made it a fairly close fight. The Maroons led, 20 to 12, at the intermission, while the Maroons were easily superior in the second half and ran up a big count.

MONTICELLO TRIMS BRODHEAD, 14-12

Monticello, Jan. 24.—Monticello high school made the Brodhead basketball team look like a bunch of rags by beating them here yesterday night.

The local boys held the lead all the way, keeping Brodhead in hand by a well developed guard system. The visitors, after the score stood 10-10 against them at the end of the first half, tried hard to come back in the final period but without success.

PLAN BIG CHANGES IN TENNIS RULES

FOR SKIN TORTURES

New York, Jan. 25.—A conference which may result in radical changes in American tennis rules will be held here February 6 in connection with the annual meeting of the U. S. National Lawn Tennis Association. Various committees, which have been working for months on revisions of codes and presenting their recommendations to the association delegations from parts of the country. Revisions of playing rules, adoption of a new plan of organization and voting power for the association, and approval of a new system of competition for the national tennis championships are among the more important matters to be considered. These changes, the most radical proposed in many years, will attract widespread interest among all followers of tennis, because of their influence on the future of the sport.

Lansing, Mich., Jan. 26.—Michigan Aggies defeated Notre Dame Saturday night, 20 to 18, in a fast, rough and rugged basketball game. Eighteen foul fouls were made, ten by Notre Dame and eight by the Aggies. Grandstaff of Notre Dame made four in the first ten minutes and was put out.

KENTUCKY DERBY MAY BE \$50,000 EVENT

Louisville, Ky., Jan. 26.—The 1920 Kentucky Derby will be a \$50,000 event. The Kentucky Jockey Club has announced that \$50,000 will be added to that stake and subscriptions, declarations and starting fees will bring the net value of that event to an immense figure.

The increased added value of the race will attract hundreds more nominations than in past years and the race will easily be the "most stellar" turf event. Dates for Kentucky, Ossining, open to bobsledders from New York, New Jersey, Connecticut and Rhode Island to make it a local meet an annual affair.

Four prizes will be awarded to the sleds sliding the greatest distance.

NEW YORK PLANS BIG BOBSLED CARNIVAL

New York, Jan. 26.—The heavy fall of snow in this vicinity recently has revived interest in winter sports almost forgotten here—bobsledding. A tristate championship tournament was arranged today to be held January 25 on Humphreys Hill, Ossining, open to bobsledders from New York, New Jersey, Connecticut and Rhode Island to make it a local meet an annual affair.

Four prizes will be awarded to the sleds sliding the greatest distance.

Heart and Home Problems

BY ELIZABETH THOMPSON
Letters May be Addressed to Mrs. Thompson, in Care of the Gazette.

Dear Mrs. Thompson: I would like very much to express my opinion regarding a letter signed "Never Give Up." I think it the most sensible article I have ever read in your column.

It hardly seems possible that you would think the views of the girl radical. You speak of the different moral standards. It can neither be raised nor lowered.

I trust that you will not think me narrow-minded.

BACHELOR OF 24.

There are different moral standards. You do some things which you consider right which I could not do.

While I do many things which you would believe absolutely wrong, it is a question which of us has the better idea of right and wrong.

Many excellent characters dance and play cards. But since "Never Give Up" has principles of dancing and card playing one should not contradict her convictions. Our opinions change, however, and what we think wrong today is right tomorrow and vice versa.

Dear Mrs. Thompson: I am in love with a young man who lives with his grandmother. She threatened to disinherit him for going with me. Several weeks later he broke away from me. I've gone out with him several times since and he treats me the same as he always did, but never asks for a date or kisses me good-night.

Do you think he quit me on account of his grandmother's threat? Is he worthy of my love? I am in a different city and he knows my address, but still he doesn't write.

It looks very much as if the young man is doubtful about his love for you and prefers to stand by his

silence.

"Melting Heart": I have some interesting letters for you which I will forward if you will send me your name and address.

AUTOBIOGRAPHY OF A PLAIN BABY—IV

The Water Is Fine

The day I arrived, so they tell me, the nurse rubbed me all over with fresh soap. Sweet oil is the next best thing, father thinks. This removes the protective coating which is on a baby's skin when he is delivered, and does it better than any soap. Even the finest soap is rather irritating to the skin of a newborn baby, and therefore it is better to omit the soap and water bath for 12 to 24 hours.

I took my first swim the morning after I arrived. The water was fine. But you'd never guess it, would you? I know it. That, however, is the only way a little boy has of expressing his emotions, and dad considered it essential for a baby's lung development and general physical well-being that the baby should have at least one swim every day.

If the water doesn't start this entertainment spontaneously, when being bathed, for instance, then the nurse should help the youngster a little, giving the youngster a little sponge enough to make him whoop it up with glee.

The nurse sat before the fire and undressed me on a warm flannel apron that covered her lap. She had everything ready, a big washbowl full of lukewarm water, plain toilet soap, some soap sudsy mixture, boric acid solution, and little balls of cotton in a saucer for my eyes, a complete assortment of safety pins, clean diapers, and my swaddling clothes all within reach from her low chair.

She put me right in the washbowl and slipped my neck and head with her left hand while she bathed me with a soft wash cloth in her right hand. She used the boric acid solution (tablespoonful of boric acid dissolved in a pint of water) to bathe my eyes, allowing it to run over my eyes and wiping the edges of the lids very gently with moistened cotton; she had the solution nice and warm.

After my bath the nurse removed me from the bowl—the bath took four minutes—and laid me on a hot towel while she dried me with a soft warm towel, powdered me with plain talcum, applied a fresh naval pad—

stood Fanny Frisbie, wild eyed and hysterical. Her hat was awry, her gloves and handbag on the floor, her hair in the horizon wisps no woman even dares to dignify. Her state of mind is much seen on the southern beaches and hotel verandas, or on the links. The knit shirt is particularly good this spring, but it is doubtful whether it will hold its place in the summer against the white wash sport models.

Poor Fanny, crazed either with drug or drink, shrieked again as she caught sight of me and with a smile of triumph, her hand doing a roll of books and magazines off the table toward me. I grabbed her wrists and tried to force her toward the couch, Jim helping me with one hand, the glass in the other, until she fell out our curtains, babbling at once as the elevator came rattling up again to our floor. Freshly some one rapped. It was a young physician living in the house, who offered his services—which we accepted with unfeigned thankfulness.

The rest was quickly over. It was too much "coca," the doctor said, after he had gotten the pathetic creature quieted upon the sofa. He volunteered to take her to the hospital in a taxi, and as soon as the hideous episode was over and they were all out of the house I turned indignantly to Jim:

"Jim, what does this mean?" I cried, trembling with nerves from head to foot. Jim looked hardly less upset. "What was she doing here, and why did you see her?"

"She simply came and the boy told me her name. I don't know all I know. She tried to cry and babble about meeting you in some restaurant. When I told her it couldn't be so she flew into a crazy rage and screamed and threw things. Now could I know why she came, but an unbalanced person is apt to do anything."

"You'll give orders not to admit her?" I said.

"Oh, she won't come again," said Jim.

Jim was silent, too upset to speak. But I gave him the orders. For the first time I feel glad we are going to Hammonds Corners.

Milwaukee—Mrs. Frank Wolf died at the family home at Two Rivers, aged 61, after a long illness. Decedent was born at Appleton and had resided at Two Rivers for 18 years. She is survived by her husband and five children, one of whom, Francis, who was a student at Delafield, disappeared two years ago and has not yet been located.

Hurley—Any movement to change the boundary line between Michigan and Wisconsin to include approximately 400 square miles of iron county in Gogebic county will be bitterly contested by the Upper Peninsula people, the eastern side of Iron county and its loyal to Wisconsin; in fact residents declare they prefer to move rather than to come under the jurisdiction of Michigan.

Crooked Trails and Straight

By William MacLeod Radine

When he had finished the owner of the Circle C caught him hand. "You've done fine, boy, a man in Arizona could have done better."

Kate said nothing in words but her dark long-lashed eyes rained thanks upon him.

They talked the situation over from all angles. Always it seemed down to one—was Sam's Soapy's first play? Until he moved they could not. They had no legal evidence except the word of Curly. Nor did they know on what night he had planned to pull off the hold-up. If they were to make a complete gather of the outfit, with evidence enough to land them in the penitentiary, it could only be after the hold-up.

Meanwhile there was nothing to do but wait and take what precautions they could against being caught by surprise. One of these was to see that Sam was never far away or sight. Another was to ride to Tin Cup and look the round over carefully. For the present they could do no more than watch events, attracting no attention by any whispering together in public.

The old Arizona fashion of settling a difference of opinion with the six gun had long fallen into disuse, but Saguchi was still close enough to the stark primitive emotions to wait with a keen interest for the crack of the revolver that would put a period to the quarrel between Soapy Stone and his friend.

Curly had refused to leave town, just as it was known that Stone and that other prison bird Blackwell were hanging around the Last Chance and Chalkeye's Place drinking together merrily. Soapy observed to those never Curly appeared in public he was attended by friends. Sometimes it would be Macfayen and Davis, sometimes his uncle, Alec Flandrau, occasionally a couple of the Map of Texas vaqueros.

It chanced that "Old Man" Flandrau, drifting into Chalkeye's Place in the assembled group, the man he sought, Billie McKenzie, grazed owner of the Fiddleback

Then last spring I was taken with a lame back, it didn't bother me in day-time but I could hardly stand it to lie in bed at night. I was advised to go to a doctor for a new plaster on the backbone. I got a bottle of the 'Favorite Prescription' and a vial of 'Pellets' and before I had taken half my backbone left me and I haven't felt any more of it."

ranch, was with him, and it was in the preliminary pause before drinking that Alec made his official announcement.

"No, Mac, I ain't worrying about them any more. Curly is going to get a square deal. We're all agreed on that. If there's any shooting from over there'll be lynching pronto. That goes."

Flandrau, senior, knew perfectly well that inside of an hour word would reach Soapy Stone that only an hour break with Curly would be allowed.

Another day passed. The festivities had begun and Curly had to be much in evidence before the public. His friends had attempted to dissuade him from riding in the bucking broncho contest, but he had refused to do so, for he could be scratched from the list of contestants.

The grandstand watched the boy as he lounged against the corral fence, laughing and talking with his friends. A dozen people were on the look-out for the approach of Stone. Fifteen others had gathered the young man to be closest to a man.

Dick Maloney heard his voice called as he was passing the grandstand. A minute later he was in the Cullison box shaking hands with Kate.

"Is there anything new?" she asked in a low voice.

Her friend shook his head. "No. Soapy may drift out here any minute now."

"With who?" Her eyes finished the question.

"I don't know his head. 'Don't know. That's the mischief of it.' If they should meet just after Curly finishes riding the boy won't have a chance. His nerves won't be steady enough."

"Dad is doing something. I don't know what it is. He had a meeting with a lot of cattlemen about it. I don't see how that boy can sit there on the fence laughing when any number of cattle are out so hard that it sent him flying through the open door and out into the road, where he landed in a mud puddle."

A lad made his way to them with a note. Kate read it and turned to Dick. Her eyes were shining again. "I've got news from dad. It's all right. Soapy Stone has left town." "Why?"

"A dozen of the big cattlemen signed a note and sent it to Stone. They told him that if he touched Curly he would never leave town alive. He was given word to get out of town at once."

Maloney slapped his hand joyously on his thigh. "Fine! Might a-known luck would find a way out. Soapy couldn't stand out against the big ranchmen when they got together and meant business. He had to pull his freight."

"Let me tell him the good news, Dick," she said, eagerly.

"Sure. I'll send him right up."

Bronzed almost to a coffee brown, with the lean lithesome grace of youth garbed in the picturesquesque regalia of the vaquero, Flandrau was a taking enough picture to hold the roving eyes of any girl. A good many cattlemen up here now, and he sauntered forward toward the Cullison box, cool and easy and debonair.

Kate gathered her skirts to make room for him beside her.

"Have you heard? He has left town."

"Who?"

"Soapy Stone. The cattlemen served notice on him to go. So he did."

A wave of relief swept over the young man. "That's your father's fine work."

"Isn't it good?" Her eyes were shining with gladness. "I'm so happy, I don't know what to do." She suppose now the holdup will be put off until Sam and Blackwell go with him."

"No. He went alone."

"Have you seen Sam yet?"

"No, but I've seen Lufira London. She's all the nice things you've said about her. You see she has made a friend of you."

"You bet she has."

Miss Cullison shot a swift slant glance at him. "If you'll come back this afternoon you can meet her. I'm going to have all those dimples and all that sunshine here in the box with me. I say that will draw Sam to you."

"I'm hoping it will. But I'm afraid not. He avoids us. When they met he wouldn't speak to father."

"That's the boy. I say the same thing. I feel pretty bad about the quarell."

I reckon there's nothing to do but keep an eye on him and be ready for Soapy's move when he makes it. I'm so afraid something will happen to Sam."

WHEN A MAN'S MARRIED

BILLY WHISKERS

By FRANCES TREGO MONTGOMERY

When Billy Whiskers butted the man at the soda fountain in the stomach and rolled him over, the girls frightened the girls and boys who had been sitting sipping sodas and laughing at the man, and there was a mad scramble to get out, but Billy was too quick for them. He wheeled around and began to run, and as one fellow's coat so hard that it sent him flying through the open door and out into the road, where he landed in a mud puddle.

Then he turned and went for the girls who were all huddled together against the wall screaming and crying with fear. He picked up two of them. As they saw him coming, they thought their time had come and threw up their hands to cover their eyes and screamed harder than ever. But he only took a bunch of cotton on the press, and now the fool's been pardoned! Pulverizing pastepots, man! What are we going to do?"

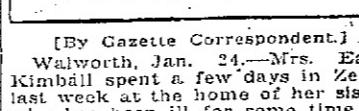

With a calm that can only be adopted by an occupant of the editorial chair, the editor eyed his writer and said:

"There's nothing to be excited about man!" he remarked, calmly.

"(Tomorrow) Billy joins the Rooney family temporally."

What Janesville's New Hotel Will Look Like

The new hotel will be a credit to the city and a source of profit and pleasure to everyone in the community.

Funds are being raised now to finance its construction. 6% preferred stock to the amount of \$400,000 is being sold to raise the necessary money.

This stock is a splendid investment. An investment in your own city. An investment paying good dividends in money and personal satisfaction.

Imagine what a hotel like the one pictured above means to Janesville. Imagine what it means to you. Realize how it will increase in value all of your holdings in this city. Realize what it will mean to the social and civic life of Janesville--then subscribe.

No one can afford to hold out on this proposition. Public sentiment is strongly for the hotel.

Development will be seriously retarded in Janesville if the hotel stock is not subscribed. Can Janesville afford to have any part of its development retarded at this time?

The subscriptions are coming along in good shape but they must come faster.

You want a hotel like the one above. Get busy with your subscription. See that the other fellow subscribes.
